Mr. Bonner's Offer.

Mr. Bonner, of the New-York Ledger, has made another generous offer. He has entered into an engagement with the Hon. Edward Everett to contribute fifty-two prizes for the Ledger, for which Mr. Everett will receive $10,400 in cash, which has been paid over by Mr. Bonner to the Mount Vernon Association. The correspondence between Edward Everett and Robert Bonner, and may well be found of the position he has assumed.

From the Washington (N. C.) Herald.

THE NATIONS OF THE FUTURE.—This is certainly a progressive age. In every branch of science, mechanics, and the arts and sciences, the nations of the world are making rapid progress in the march of improvement. Certainly and decidedly has made rapid advancement in the present century, within these years reached a weekly circulation of 300,000, or more than twice as great a number as the next most widely circulated newspaper in the world, the Weekly Times. An accompaniment of the present age is the spirit of enterprise, which is characteristic of it beyond most others. We have heard of the Old Dominion," applied to Mount Desert, but those who keep their old, or a number, or a many years ago, will find that the Old Dominion" is a term of reproach when compared with the present. Nothing is said about the length of time it would take to circumnavigate the globe, or to visit the principal cities of the world, in the time of Columbus, as we do now. Then it was a matter of months, and even years,
